

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## PREFACE.

---

IN issuing an Index to the first eight volumes of Registered Wills proved in the Exchequer and Prerogative Courts of York during a period of one hundred and twenty-five years, commencing in the year 1389 and terminating in 1514, a few words in explanation of their contents and arrangement are necessary.

Nominally the Registers contain Wills only, but down to A.D. 1502 they take the place of Act-Books also, for besides Wills we find Grants of Administration in the case of Intestate Estates, and a large number of Grants of Probate where for some unknown reason the Wills were unfortunately never copied, and of these nothing but the bare Record of the Grant remains, for the earliest original Will, now existing, bears, as date of probate, the year 1559.

Valuable as this series is, it must not be regarded as perfect. Gaps occur not only during the vacancy of the See by the death or translation of the Archbishop, when, until the appointment of a successor, all Grants were made in the Dean and Chapter's Court, but also the Wills proved during several years of the first quarter of the 15th century, besides shorter periods at other times, are missing. The decay of age, the want of proper care, or the hands of the plunderer and destroyer in troublous times, are the most probable causes. Indeed when we look back at the state of the country during the Wars of the Roses, the Great Civil War, and other turbulent times, the wonder is that so much has escaped destruction, and while we cannot but regret what is lost we must be thankful that so much remains. The periods of these gaps are fully shown in Appendix II. at the end of this volume, which was prepared, however, at the cost of considerable labour, for the purpose rather of showing the extreme state of confusion that exists in the chronological arrangement of the Wills in the five earliest volumes of Registers, and of assisting the searcher to find portions of divided Wills, hitherto difficult to connect. How this state of things came about we know not, but probably some two or three centuries ago, through a commendable desire to preserve such transcripts as then existed and were falling into decay, the caretaker, for the time being, handed over the then straggling folios to the binder, in bundles, without previous arrangement; or he, more probably, being an ignorant and unlettered man, with knowledge just sufficient to dis-

tinguish the top from the bottom of the page, shuffled up the parchment folios as he would a pack of cards, before dealing, and thereby produced their present unhappy condition.

Vol. I., a very small volume, more fortunate than its immediate successors, seems almost to have escaped, for, in it, not more than two or three folios are misplaced, and about the same number are missing. Vols. II. and III. are so mixed up that, in several instances, the commencement of a Will is to be found in one volume and its termination in the other; and about thirty-five folios of Vol. III. should properly have been bound at the end of Vol. V. In Vol. IV., though not mixed with other volumes, the shuffling process seems to have reached its height, and the number of broken Wills is, in proportion to its size, greater than in the two preceding. The state of Vol V. is less bad, but towards the end the Wills are much mixed and difficult to place, and here, as stated above, a portion of Vol. III. should properly have been dovetailed.

The table forming Appendix II., though only approximately, still substantially correct, shows clearly the difficulties that both official and other searchers have had to contend with, and there is some little consolation in knowing that, should it ever be determined to rebind these Registers (and they sadly stand in need of it) and at the same time rearrange the folios, with this table as a guide, very little more labour will be required to put them into an almost perfect state of order. It will, however, before venturing on this, be a matter for serious consideration how far it would be wise to upset all previous references, printed and manuscript, which such a proceeding would necessarily do, besides necessitating the indexing of the volumes and the renumbering of the folios, which could not be done except at considerable expense and labour.

It is due to Mr. Richard Holmes, of Pontefract, to say that he laboured hard to piece the broken wills in Vols. II. and III., and to reduce chaos to some degree of order. Partly, however, from want of time, and partly feeling that this work must occupy the attention of the indexer, he left it unfinished, but in a state sufficiently advanced to be a very material help.

After quitting Vol. V. we get rid of these difficulties, but it must not be supposed that a perfect state of chronological order is to be found in any of the Registers. The fact that many of the Wills had to be sworn to before the Surrogates in the various Deaneries of the Diocese, several at a considerable distance from the Archbishop's

Courts, and that they were probably sent up in bundles, at stated periods only, is a sufficient reason for the apparent want of method.

With Vol. VI. we come to the earliest Act-Book, which commences in 1502 and runs contemporaneously with Vols. VI., VII., and VIII., terminating with the latter volume in 1514. In these three volumes we find but comparatively few Administration Grants, or Probate Grants where the Wills were not copied, and as a supplement to them, so as to make this a complete Index of all Wills and Acts to the year 1514, there will be found in Appendix I., such Grants as are entered in the earliest Act-Book but not in the Registers. With regard to the Act-Books it is necessary to say that there is a separate Act-Book for each Deanery. The early books seem to have been carelessly kept, for it is not an uncommon occurrence to find that an entry has been made in that of a wrong Deanery and sometimes we find it repeated in two or more books, perhaps, in the latter case, from the fact that the deceased held property in more Deaneries than one. The date of the grant frequently disagrees with that given in the Registers. Indeed in certain instances it would appear rather, to be the date on which the Surrogate was commissioned to prove the Will, and this, in some cases, is followed by the actual date of probate, and in others only by the date on which the Inventory was directed to be, or was actually exhibited, so rendering the identification of certain Wills somewhat difficult. There are several entries simply of announcement of death without either date or further information.

Appendix III. is a list of the various Courts of Probate now known to have existed in this County, to which are added those of Nottingham. This was originally supplied through the kindness of Mr. Rodman, and subsequently corrected by the permission of Dr. Marshall, "*Rouge Croix*," from his valuable work "*Handbook to Ancient Courts of Probate*," to which (particularly the preface) the searcher is referred for further information. With regard to the smaller Courts it is necessary to remind those interested that they must not expect to find a series of Wills extending from the date of the earliest probate, given, to the present time, or they will be disappointed, for in many instances there are only one or two Wills approaching that date, followed often by gaps of many years, and subsequently the proceedings of some of these Courts, though probably regular, appear through the loss or destruction of the Records, to have been, so to speak, very spasmodic, if we may judge from the results as we now see them.

It remains now only to say that this Index was compiled from the Registers and not from the Official Calendars, though the latter were freely used as a means of correction. Each Register was carefully gone through folio by folio, and each Will and Act examined. Errors no doubt, either clerical or misreadings, may have crept in, but no pains have been spared to limit their number. Several discrepancies in dates will be observed, the date of probate given in the transcript being *anterior* to that of the Will. Unfortunately there are no means of correcting such mistakes.

Instead of printing a separate Index for each volume of Registers, the searcher will no doubt be glad to find his labours lessened by having to refer to a consolidated Index of the eight volumes, arranged alphabetically. How far this plan can be followed in future volumes, depends upon the number of subscribers, for such an arrangement adds considerably to the labour and consequently to the expense, particularly if an Index of the Act-Books is to be incorporated with that of the Registers.

To enhance the value of the Index the five volumes of the "Testamenta Eboracensia," published by the Surtees Society, were carefully looked through, and where the letter "s" is placed before the name of the testator it signifies that the will or a more or less extended abstract of it will be found in one of these volumes. As a further guide it may here be stated that Vol. I. of the "Testamenta Eboracensia" comes down to 1429; Vol. II. extends from 1429 to 1467; Vol. III. from 1467 to 1485 (there are, however, some early Inventories from the Dean and Chapter's Court which take up the greater part of the first half of this volume); Vol. IV. extends from 1485 to 1508-9; and Vol. V. from 1509 to 1534, or twenty years later than this Index. By keeping these dates in mind the searcher will see at once to which volume he should refer.

Lastly, in all cases of difficulty Mr. H. A. Hudson, the District Registrar, Dr. J. Sykes, of Doncaster, who also kindly looked through the manuscript and gave many valuable suggestions, Mr. Dickens, and others, were ever ready to give their help and experience, which must be gratefully acknowledged; as also the courtesy and assistance rendered by Mr. Hudson and the Staff of the Registry. Hearty thanks are due to Sir James Hannen for so readily falling in with the views of the Council by permitting the work to be undertaken.

# WILLS IN THE YORK REGISTRY.

A.D. 1389 TO 1514.

The date of the Probate precedes the Name and that of the Will follows the Name, the reference to the Register and folio following the latter. The letter *s.* before the Name signifies that an abstract of the Will is to be found in the Surtees Society's "Testamenta Eboracensia," and the abbreviations "Test. Ebor., S.S.," in the foot-notes refer to the same work. The term "Prob. Act" signifies that there is no Will existing, but only the Probate Act; "Adm." in like manner means that there is no Will but an Administration Act.

## APPENDIX II.

### *A Chronological arrangement of the Wills in the five earliest Volumes of Registers.*

Vol. I., covering the period from October 11, 1389, to September 30, 1396, may be considered to be complete, save that the folio which should follow folio 51 and that which should follow 99 are missing. In binding, three folios have been misplaced; folio 56 should follow folio 24; folio 57 should follow folio 26; and folio 100 should follow folio 95. A gap of six months occurs between Vols. I. and II.

The Wills in Vols. II. and III., which cover the period between April 1, 1397, and June 12, 1465, have, in binding, become so mixed that in several instances, as may be seen below, part of a Will is to be found in one volume and the remainder in the other.

Vol. IV., covering the period from August 29, 1465, to August 8, 1476, though complete in itself, is chronologically in terrible confusion.

In Vol. V., extending from September 24, 1476, to March, 1500, the arrangement is less faulty, but with the latter portion of it, from May, 1498, to March, 1500, about 35 folios of Vol. III. should be incorporated.

The following table shows the order in which the folios forming these volumes should be placed:—

Vol.	Folios.
II.	1 to 14, contain Wills proved from Apl. 1, 1397, to Apl. 11, 1398. <i>The following three months are wanting.</i>
III.	1 to 287, contain Wills proved from Jul. 6, 1398, to Apl. 10, 1408. <i>One month wanting.</i>
II.	575 to 579, contain Wills proved from May 15, 1408, to Aug. 21, 1408, commencing with the last line of a Will dated Kyrkby in Fourness, the witnesses to which are Wm. Wenynghon, Thos. Benson, and Jo. Asbrynner, and terminating with the Will of Thos. Brame, which is continued on f. 582.
II.	582 to 586, contain Wills proved from Aug. 22, 1408, to Oct. 5, 1408. One or more folios which should follow 586 are missing.
III.	603, contains Wills proved from Oct. 12, 1408, to Oct. 27, 1408, commencing with the imperfect Will of Wm. Sallay, the first portion of which is missing, and terminating with the imperfect Will of Thos. Walker, the latter portion of which is missing. <i>Here follows a gap of nine and a half years; all the Wills proved during this period are missing.</i>
III.	604 to 613, contain Wills proved from Mar. 19, 1417, to Jan. 28, 1418, commencing with the termination of a Will proved Apl. 1, 1418, the witnesses to which are John, Vicar of Elyngton, and Rich. Knyght "clerico meo," and ending with the imperfect Will of Alice Fulforth, transcribed on the last folio of this Register. <i>There is here another gap of eight years</i>
